

SlimPAR Pro RGBA

It's a wash light featuring red, green, blue and amber LEDs. The addition of amber offers a more complete spectrum in some of the harder-to-create warm colors and also punches up the saturation and vividness of colors in general. This unit is perfect for adding a lot of color to small performance venues.

Highlights

- LED Par designed for any application in need of a high-power, low-profile wash light
- Create a magnitude of colors with red, green, blue and amber LEDs
- Produce a broad spectrum of colors and boost CRI with amber LEDs
- Ideal for quiet applications due to silent operation and no moving parts
- Flicker-free operation suitable for on-camera use
- Achieve smooth LED fading with built-in dimming curves that simulate existing lighting
- Ensure a secure power cord with the locking IEC power input (US version only)
- Trigger eye-catching effects with built-in, automated programs via Master/Slave or DMX mode
- Increase stand-alone versatility with multiple user-configurable settings
- Save time running cables and extension cords by power linking multiple units
- Emit a more concentrated beam for longer-throw applications using the optional narrow-angle lens
- Fits best in the CHS-30 VIP Gear Bag
