

SlimPAR QUAD 12 IRC

SlimPAR QUAD 12 IRC is a low-profile, high-power LED PAR designed for any application where wash lights are needed. Twelve quad-color (RGBA) LEDs make this the perfect front light by eliminating multicolored shadows and providing a smooth, even output. The addition of the IRC-6 allows simple operation and eliminates the hassle of programming. With a 100% convection cooling system, there is no fan noise to distract the audience.

Highlights

- Low-profile, quad-color LED PAR with built-in infrared (IR) technology
- Generate a broad spectrum of colors and achieve natural-looking color temperatures with punchy amber LEDs
- Easily control static colors and automated programs with the optional IRC-6 remote
- Ideal for quiet applications due to silent operation and no moving parts
- Create any color without DMX by using the built-in digital display
- Save time running cables and extension cords by power linking multiple units
- Create coordinated light shows by linking other quad-color LED SlimPAR™ fixtures in Master/Slave mode
- Easily transports in the optional CHS-30 VIP Gear Bags
- Compact design easily fits inside sticks of TRUSST®
