

STC-50 TWIN PLAYER SD/USB/MP3

SKU: 172.797 | EAN: 8715693248456

Description

The STC-50 is a DJ tool that's perfect for those with large music libraries in MP3 format. Unlike many other controllers in its price class STC-50 grants you the freedom to decide whether you access your MP3 collection via USB or SD storage media. The tracks here can be manipulated in many ways and as with a conventional double CD player all the usual functions are available with loop function, pitch and cue as standard.

Creative functions include reverse and brake functions as well as scratch functionality which can be controlled through the well-balanced jog wheels. The STC-50 is also suitable for the 48cm (19") rack installation.

- USB and SD inputs for direct playback of MP3 from the appropriate USB and SD storage media
- Multifunctional, handy jog wheel with scratch Function
- Reverse and brake function
- Great, informative LCD display with blue backlight
- Suitable for 48cm (19") rack installation
- ID3 tag
