10 REASONS why you should choose the WORLD-LEADER

20 years experience in lighting software, a team of 10 engineers.
Our sales multiplied x 5 over the past 5 years.
Distributed in 60 countries, software translated in 16 languages.
Brochures, advertising, mouse pads, posters, demo CDs, demo boxes ...
Powerful and user-friendly software tools, Easy View, Easy Step...
Inventor of best-selling USB/DMX interfaces, a world standard.
We supply the leading developers and manufacturers in the world. (OEM)
Our fixture-library is the most popular widely-used among professionals.
«Sunlite Basic Edition», a marketing revolution.
Thousands of new enthusiastic Sunlite software users each year.

Preprogrammed buttons that make absolute control of your fixtures possible in just a few seconds
Multimedia capability (AUDIO, VIDEO, MIDI...)
Multi-page user interface allows fast and easy access to your lights
Color Manager: The future of color management tools
Upgrading to higher level packages is always possible
EasyView 2006: real-time 3D visualizer of your shows
Console features for «Live» using the latest generation of MIDI controllers
Software controller tools are as powerful as the expensive lighting desks. still, our software is easy to use and intuitive to learn

SUNLITE SUITE
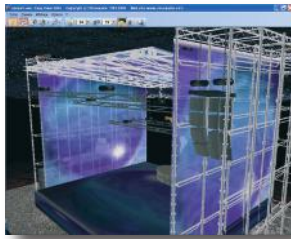

Easy View

Easy view is the ideal «3D real-time» simulation. You can visualize stages, buildings, traditional lighting projectors as well as your scans, heads, color changers, leds. See «Magic 3D Easy View» brochure.

Wizard and Fixtures

The wizard helps you to control your fixtures by building a new page in 30 secs.

The largest fixture library
More than 100 manufacturers, 2,000 fixtures, 500 gobos, 1,000 icons. Create your own fixtures, or let us create them for you
